**CIA (Citizenship in Action)**

The registration deadline is this **Wednesday, January 15th**. Don't be late. I will send you all information on how to contact your senators and congressmen soon. We will have a few changes this year with the biggest one being each 4-H member will have a bed to themselves. There will be roll away beds in many rooms as well. We will use leadership grant funding to pay for the registration of this event. I plan on attending and driving the youth there unless we have more than 6 sign up. We may be able to pool rides again with another county. This is a great experience for the youth to meet their congressmen and learn about politics and how 4-H extends out into real life careers.
Ambassador Training

The 2020 Kansas 4-H Ambassador Training will be February 21-22 at Rock Springs Ranch. It is open to all county/district 4-H ambassadors, interested teens, ambassador advisors and Extension staff. Ambassador training is open to any 4-H member in 8th – 12th grade. Local Extension offices may not be able to provide chaperones and/or transportation to this training. Check with your local Extension office before registering.

Dr. Frank Tracz, Director of Bands at K-State, will be one of the keynote speakers. Dr. Tracz has served as an adjudicator, clinician, and speaker in various schools and conferences and has conducted All-State and Honor bands across the United States as well as in Canada, Singapore, South Africa, Fiji, Australia, and New Zealand. We are excited to learn his views on leadership!

Ross Janssen, KWCY Chief Meteorologist, is our second keynote speaker. As a Kansas 4-H alum, Ross will share how he combined his passion for weather and the skills he learned in 4-H to help get him where he is today. He’ll also give insight as to how we can continue to share the 4-H story to strengthen the brand across the state.

The theme is “4-H Ambassadors- Under Construction.” The following workshops will be offered, as well as two speakers, with lots of fun and fellowship. Workshops to be offered include:

- Real Colors, 1st Year Only - Learn about the four color personalities of green, blue, gold and orange. Discover your primary color and what it means.
- Leadership 101, 1st Year Only – Knowing your leadership style will help you learn about collaborating for self, others and your community.
- Intro Communications, 1st Year Only – Learn basic communication skills that you need to know to be an effective county/district ambassador.
- Facilitation Skills – Learn how to effectively organize and engage participants for a meaningful experience.
- Growing the 4-H Brand- What progress has been made since launching the Grows Here campaign in 2016 and where do we go from here?

Full details with flyer, schedule, letter to youth and letter to staff are posted on the Kansas 4-H Ambassador Training page. Click here to register.
K-State Plans Leadership Academy for Youth Interested in Livestock Industry

Registration is now open for four-day summer event.

MANHATTAN, Kan. – Students from across the country with an interest in the livestock industry and related careers can apply now for the Kansas State University Animal Sciences Leadership Academy (KASLA).

The academy, now in its 12th year, is an intensive four-day educational experience designed to enhance the leadership skills and animal science knowledge of students in grades 9-12.

Hosted by the K-State Department of Animal Sciences and Industry and sponsored by the Livestock and Meat Industry Council (LMIC), the academy’s goal is to develop young leaders within the livestock industry and prepare them for a successful future in this field.

“The biggest benefit that I received from KASLA was identifying my strengths and weaknesses and figuring out how to play to my strengths,” said Gavin Beesley, 2019 participant from Conway Springs, Kansas. “I would encourage others to apply. You get to have learning experiences while also being able to meet people in the agriculture industry. I got to meet so many fun people who were interested in similar things that I was and we got to have fun while learning.”

The academy will take place in Manhattan, June 24-27. Applications are due April 15, 2020, and can be found at http://www.YouthLivestock.KSU.edu.

The program’s itinerary will feature interactive workshops, tours and faculty mentor time with animal sciences and industry professors. Industry leaders will also join the participants frequently to share their knowledge and expertise.

Throughout the week, participants will work in teams to evaluate current events within the animal science industry in order to educate others. The leadership academy will culminate with team presentations and a closing reception on Saturday morning.

Only 20 students will be accepted for each session so that counselors, professors and industry leaders can provide individualized attention. Participants will stay on campus in university housing with program staff for the duration of the event.

Transportation to and from the event is the responsibility of the participant, along with a $50 fee to reserve space. This fee is only due upon acceptance and not at the time of application. Through its sponsorship, the Livestock and Meat Industry Council covers all other costs.

For more information or questions, contact academy director Sharon Breiner at sbreiner@ksu.edu or 785-532-6533.
